## ... FRESHEN UP YOUR CAR

Stainless steel pedal covers (FCA 000 001)

You can simply turn your elegant Fabia design into a more sports-like style. The Škoda genuine accessories can provide you with both impressive interior features and the sports image exterior equipment. The roof spoiler together with a decorative exhaust pipe end piece underline the dynamic expression of the vehicle and the dark indicators will add the right amount of assertiveness. While the chrome-plated door locks will please your eyes, your feet will enjoy pushing down the stainless steel covered pedals.

Tune-up your car with a sports-like and luxurious leather-coated steering wheel, handbrake lever and gearshift. You will not fail to be impressed by the harmonious lines of the B and C columns decoration sets, and the plastic door sill covers provide an aesthetic as well as practical function.

The navigation system includes TMC dynamic module and a radio (AAN 000 001)

The car stereo is an excellent passenger. It does not talk while you are driving, and can be turned off. The range of Škoda genuine accessories includes both models, with a cassette player and a CD player, which include a CD changer and a hands-free set connection. We did not forget an above-standard audio distribution in your Fabia, which will bring you an unbelievable quality listening experience. If you travel through unknown territories, you will make use of a navigation system. A more than practical detail is an aerial for the reception of radio broadcasts as well as the GSM signal.

# COMFORT AND UTILITY...

Every person perceives comfort and utility differently. In order for you to choose exactly what you need, we have prepared a really wide range of Škoda genuine accessories for you, resulting in increased comfort and at the same time serviceability. Do you find it nice to drive with an open sun roof? Get it. Are your rear passengers hot? Get them a sunblind. Do you drive often on a motorway? Order a cruise control. Or anything else you might think of. The comfort and utility is guaranteed by all offered accessories such as central locking with a remote control, independent heating, rubber or textile mats and mud flaps.

The luggage space of your Fabia can easily be adapted based on your current needs. For instance the trunk grille for the Fabia Combi will be found useful by owners of four-footed passengers. The luggage space can be kept clean better with a plastic boot dish which protects the car upholstery, or with a rubber mat. Thanks to storage compartments or a parcel shelf storage bag, every transported item will find its place. The advantages of the nets do not have to be mentioned – everything is stored safely and nothing moves or overturns.

Do you need a storage space for sports equipment or other space-consuming items? Take one of our roof racks! Whether you go in for winter or water sports, or you like biking, you have to start with a roof rack. Then you can fix any other racks – such as luggage boxes and ski boxes or bike carriers. As a result of the materials from which they are produced, the racks or boxes do not represent excessive weight and are both a safe and an elegant solution. See your authorised Škoda partner and get the information about the current offer of Škoda bicycles. Your Fabia can also pull a trailer – with the original tow bar you can pull up to 1,200 kg.

## ... FOR THOSE YOU LOVE

There has been so much written about the safety of the smallest passengers that perhaps there is no need to repeat what is the fundamental prerequisite for the safety of our children. So let us be brief. The child seat is safe only if it fits the height and weight of the child. You will surely choose from the offer of original Škoda child seats, as you can find here various types of seats for children up to 12 years of age, or, as applicable, up to a weight of 36 kg. The standard equipment of all Fabias includes the special anchoring for two child seats with the ISOFIX system, which is currently the safest possibility, as the seat becomes a compact part of the vehicle.
