

SIMPLY CLEVER

OUTDOOR CLOTHING COLLECTION

ŠkodaGenuine Accessories®

The background of the entire page features two dark, muscular mannequin torsos. They are positioned side-by-side, with the one on the left slightly behind the one on the right. The lighting is dramatic, highlighting the contours of the muscles. The overall color palette is dark, with the mannequins appearing as dark grey or black against a black background.

DISCOVER OUR OUTDOOR CLOTHING COLLECTION

Nowadays the Škoda brand is a symbol for the search for eye-catching and original designs which go hand-in-hand with the outdoor lifestyle enjoyed by our customers. We have decided to build further on this harmonic union of the brand name and the customer with something original, something that will reflect our philosophy as a company and that could be described as being “simply clever”. The result of these efforts is an exclusive collection of outdoor wear, which you can find out about in more detail on the following sites.

The entire collection has been designed and made using the latest technology, making use of functional materials that are permeable, waterproof and thermo-insulating. Taped seams, water-resistant zips, breathability and an adjustable ventilation system all mean you stay warm and comfortable doing all different kinds of sports. We have of course given a thought to the environment and have taken ecology into account when selecting our materials. We haven't passed over the latest fashions either, so you'll always feel great in our clothes.

DISTINGUISHING MARKS

Unifying element of the entire collection is the symbol of a tyre tread, which is a decent and tasteful nod to our pertinence to the car manufacturers. The link to the Škoda trademark is also symbolised by the specific underline and sewn-on labels.

MEN'S JACKET

①

②

③

This three-season classic-style jacket for all types of countryside activities and sports is made from Gelanots, a well-tested and highly functional membrane material. This membrane's features, such as its water resistance even under pressure from tens of metres of water column and particularly its unique breathability – i.e. its ability to let through sweat vapours when the user is physically active – guarantee comfort and a pleasantly stable microclimate in any weather. The jacket has all the available features, such as taped seams, an adjustable ventilation system or zip-open ventilation in the armpits and top pockets, a hood in the collar that can be adjusted in all directions or the option to zip in a fleece inner jacket during the winter. Despite all this the jacket's style and tasteful blend of modern colours also mean it can be worn to a business meeting, for example.

Material

- Gelanots, Nylon 6,6 Stretch

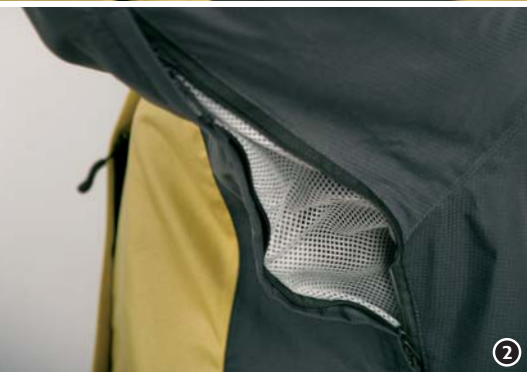

Technical specifications

- Parka-style jacket
- Designed to take a zip-in fleece inner jacket
- Perforated lining
- Hood in the collar
- Drawstrings: waist + collar + bottom rim
- Pockets: 4 covered outer pockets, 2 inner, one on left sleeve
- Zips YKK
- Main zip covered with flaps fitted with velcro
- Underarm ventilation zips
- Inner zip for zipping in a fleece jacket
- Non-unfastenable snow belt, full material down to bottom rim
- Perforated lining, full fabric below snow belt level

Size	M	L	XL	XXL

Price	3 990 Kč (price shown applies to all sizes)			

LADIES' JACKET

Shorter modern three-season design in dynamic colours. The style respects the feminine figure whilst offering all the features of outdoor wear. It is designed to take a zip-in fleece inner jacket and offers underarm ventilation. The hood in the collar and its many other features means that it provides everything needed for active countryside pursuits and perfect protection against inclement weather.

Material

- Gelanots

Technical specifications

- Parka-style jacket
- Designed to take a zip-in fleece inner jacket
- Drawstrings: collar+ bottom rim
- Hood in the collar

- Underarm ventilation zips

MEN'S SOFTSHELL JACKET

1

2

An action jacket made from a new generation of material. Softshell is an outer layer which will do you for all the conditions nature can throw at you. It's a three-layer laminate which, due to the Gelanots waterproof membrane and the laminated microfleece inner layer, is 100% wind-resistant, highly permeable and thermoinsulated. The outer layer of the softshell is mechanically highly resistant, flexible and does not restrict movement. In combination with the functional features, high-quality designer zips and technical details you have a reliable partner for all outdoor activities.

Material

- Softshell + membrane Gelanots

Technical specifications

- Zips YKK
- Pockets: 3 outer
- Hoodless
- Underarm ventilation zips

Functional features

- Thermal insulation
- Mechanical ruggedness

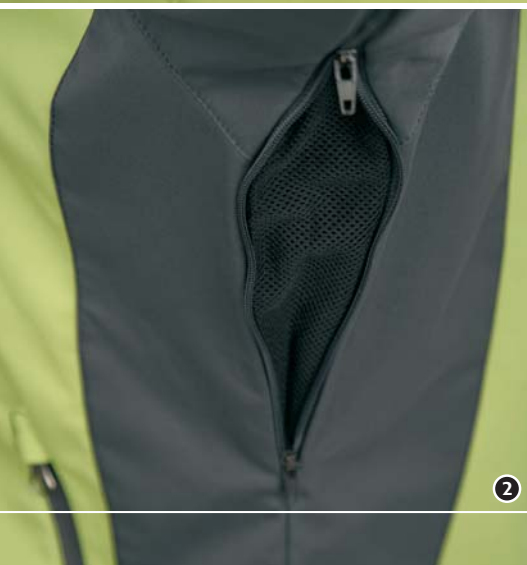

Size	M	L	XL	XXL
Order number	MCP 000 003 M	MCP 000 003 L	MCP 000 003 XL	MCP 000 003 XXL
Price	2 790 Kč	(price shown applies to all sizes)		

LADIES' SOFTSHELL JACKET

1

2

A universal, modern Gelanots softshell jacket offering plenty of insulation, breathability and wind and water resistance.

It can also be a substitute for the classic two-jacket combination – a warm fleece and a waterproof top layer – in most conditions nature can come up with. All this with no excess weight and no restriction of movement.

A revolution in sports and outdoor wear, to be worn anywhere you don't want to be caught out by a sudden change in the weather.

Material

- Softshell + membrane Gelanots

Technical specifications

- Zips YKK
