SPORT & DESIGN

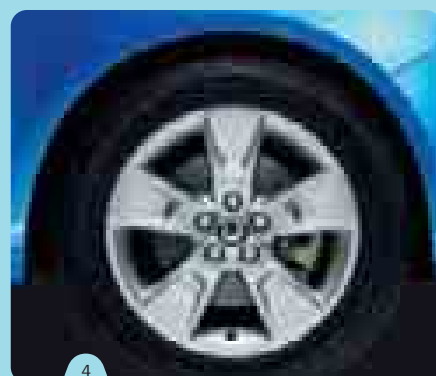

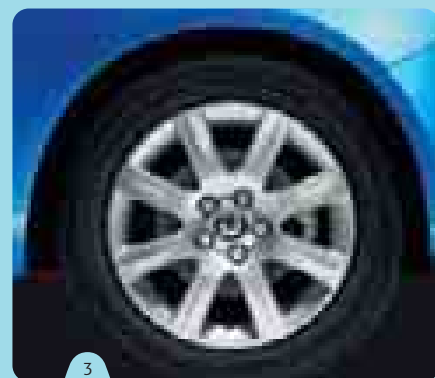

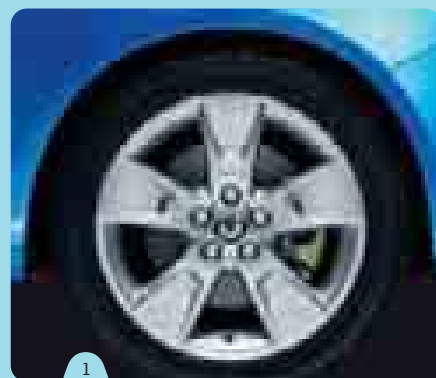

The distinct design of the Roomster harmoniously embraces elegance and a sporting spirit. This uniqueness can only be further underlined with the Roomster accessories. If you wish to emphasise the dynamism that lies hidden under the Roomster's friendly face, order the reflective decorative "Roomster" foil that

stylishly livens up the vehicle's profile. To feel invited even before entering the car, get yourself decorative door sill covers with stainless steel inserts, which in addition protect the door sills from damage. If you want to stay inconspicuous, you had better look around for another car.
