# SUNGLASSES COLECTION

**Škoda**Genuine Accessories®

## ENJOY THE SUN WITH ŠKODA

For a long time now sunglasses have been more than just a way of protecting your eyes from harmful UV radiation, as they used to be. As times have changed they have become a fashion accessory and their design has been perfected so well that now they can meet several demands at once.

Sunglasses just like these are now on offer from Škoda Auto. In collaboration with the prestigious brand Relax we have prepared a custom-designed collection featuring glasses for elegant ladies, professional drivers, young people and sports lovers.

All our glasses guarantee you 100 % protection against harmful type A, B and C UV radiation. Selected models from our range are also equipped with an anti-glare polarization filter, which you will particularly appreciate when driving your Škoda. The lenses of the glasses, made from acrylic or polycarbonate and shatterproof, also boast such outstanding features as optical clarity and precision, colour stability and scratch resistance.

The range of sunglasses is accompanied by a series of products from the Škoda Collection (including outdoor clothing, bikes, and leather accessories), aiming to allow our customers and supporters to show their allegiance to the Škoda brand.

## DISTINGUISHING MARKS

Škoda sign on the sides of the glasses

Škoda Collection sign on the cloth pouch included  
with every pair of sunglasses

# TECHNICAL INFORMATION

## UV filter

Guarantees 100 % protection against UVA, UVB and UVC solar radiation.

Long-wave UVA radiation	315 – 400 nm
Medium-wave UVB radiation	280 – 315 nm
Short-wave UVC radiation	100 – 280 nm

## Polarization filter

The polarization effect is due to lenses treated with this filter greatly reduce the transmission of glare. Glasses with these lenses are particularly suitable for driving.

## Sun filter

This determines how dark the lenses are, or the amount of visible light that can permeate through the lens. It tells the user which environments the sunglasses are suitable for.

Category	Description	Permeability	Recommended use
0	colourless or very light filter	80 - 100 %	
1	light filter	43 - 80 %	
2	medium-dark filter	18 - 43 %	
3	dark filter	8 - 18 %	 
4	very dark filter	3 - 8 %	   

## Standards

All glasses meet the required standards applicable within the EU. The applicable standards are specified on the glasses label.
